*On a mission to save lives*

An IIT educated, Piyush's journey is less about an individual and more about his matribhoomi and its people. A selfless man, Piyush left his well paying job to fulfil his life's mission is to save as many lives as possible through oxycart and toll-free India initiative. To save the lives of the nation's bravest, Piyush has developed lightweight and cost-effective bulletproof jackets.

## 1990 | Journey Begins

Piyush was born in a family of farmers in a remote village of Uttar Pradesh. Despite being from a poor family, Piyush always dreamt of rising above and touching the stars. A hardworker, he always showed great intellect and talent as a child.

## 1994 | Bal Swayamsevak

Piyush's first enlightenment happened when he joined Shishu Vidya Mandir for his early schooling. His affection towards his matribhoomi only grew exponentially during this time. With everything becoming secondary, he started to learn about how with he could help his nation by becoming a part of RSS.

## 2004 | Bright Student

During his high schooling Piyush had started to show great affinity for knowledge. He was quite studious and soon topped his tenth class exam at the zonal level, and soon headed towards his next journey of life. One which will change his life forever.

## 2007 | IIT ISM & Politics

It was not wonder Piyush had joined prestigious ISM Dhanbad, but soon came his true calling. In college he established a political party named Kadambari and soon won five elections, losing just one due to strong arming by local bahubalis. But this made him fight even harder and he soon helped getting IIT added before ISM's name.

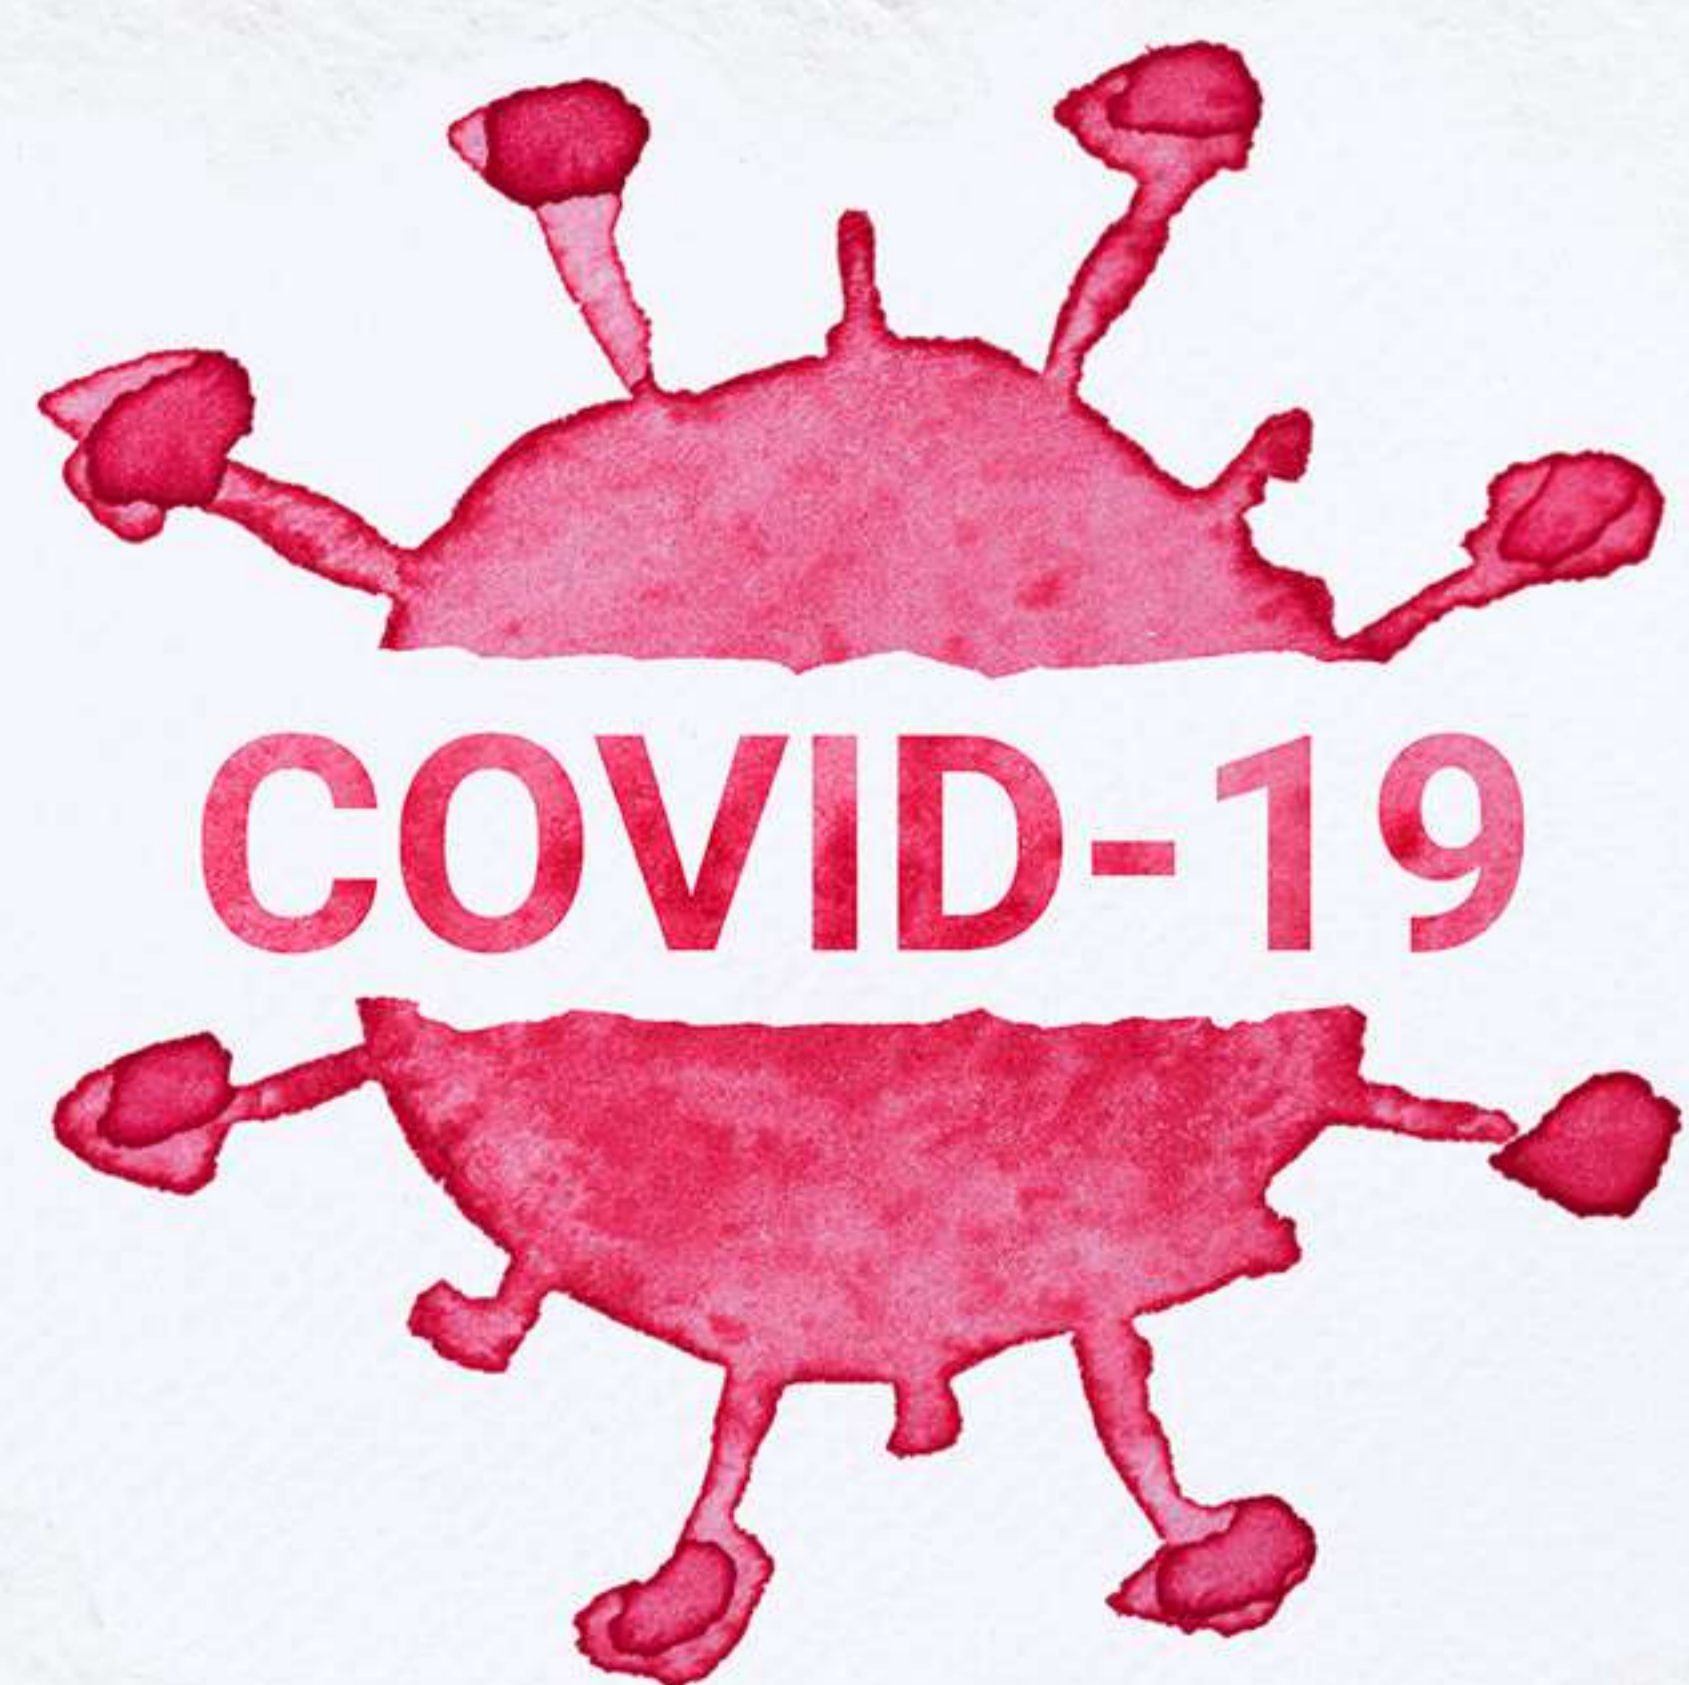

## 2013 | True Calling

Tired of state of politics, Piyush wanted to contribute to help nation take the next stage of growth and soon joined Modiji's first campaign, helping at grass root levels to mobilize volunteers to achieve the common dream of helping Modiji to serve the nation. Piyush has only lost one election out of 8 he worked on.

## 2019 | Helping Nation

COVID 19 had started taking lives & Piyush couldn't sit idle and watch it. He soon started working on problems to ensure adequate supply of essential oxygen concentrators which was in short supply due to ban on exports by other countries. Piyush contributed 10,000 ventilators in first wave with establishing Oxycart with aim of being a part of Modji's aatmnirbhar bharat

# Notable Achievements

1. Piyush helped **ISM Dhanbad to get renamed to IIT ISM**, and won 5 out of 6 elections with political party started by the name of Kadambari.
2. **10,000 Ventilators** were supplied to Central Government and 400 to UP government during first wave.
3. Started National level helpline under banner name of IIT (ISM) Dhanbad, with approx 1500+ IITians coming together to nation. Helpline is still working and will continue working till India is able to eliminate COVID.
4. **Started Oxycart** to be self reliant for oxygen concentrators for which we are completely dependent on imports leading to shortage during large numbers of COVID cases. Oxycart is developing a new technology to conserve oxygen to help **double the capacity of next generation of oxygen plants**.
5. **HelpCov** is an digital initiative launched by Piyush to enabled faster resolution of problems faced by people during crsis. Currently we have launched iOS app and soon will be launching android app post NOC from government of India.
6. We are working on scaling up production of various critical and general equipment which was imported on large scale from China.
7. Piyush has been a great teacher before joining **Modiji's campaign**, he gave his everything to the noble cause, leaving a well cushioned job, fighting with his father and going broke sacrificing everything he owned. His is teaching skills has been greatly admired at Bansal and Allen classes at Kota, Rajasthan. He believe being a teacher helped him be a better learner.
8. Piyush worked for **India Against Corruption**, mobilising his college youth in movement.
9. Piyush started **IIT ISM Contingency Fund** with his seniors to help poor students & people in need with any possible solution to elevate their living conditions. So far they have dispersed 5 crores of funds during COVID crisis.
10. Piyush also wanted to serve our nation's fearless warriors and soon identified that indigineous bullet proof vests were too heavy for comfort of soldiers while imported ones were expensive. Piyush is working on development of a light weight, low cost bullet proof jacket which is just of 2.5 kg weight.
